Solid Coloured

Earthy tones in the bathroom

For a stylish bathroom with natural tones, the Bilbao bath and Escala wash bowl in one of these full solid colours are perfect: **Moss Green, Pebble Grey and Anthracite Matt.**

For a beautiful concrete-look bathroom, match the Bilbao and Escala in anthracite with the Isola shower floor in anthracite.

Like the white variants, these freestanding baths and wash bowls consist of the same material and colour throughout. This makes them very durable, maintenance-friendly and scratch-resistant.

Bilbao Solid Coloured is only available in 170x80 cm.

New: Solid Frosted

Transparent, yet soft and concealing at the same time

Are you looking for something more special than a white bath? Do you want a real eye-catcher in your bathroom? Then discover our new Solid Frosted semi-transparent freestanding baths Oval, Oviedo and Toledo! Available in three colours: Frosted Smoke, Frosted Umber and Frosted Forest. The exterior receives a special treatment that gives the bath a frosted matt appearance.

Because we want this transparent bath to be fully aesthetically pleasing and not disturb its appearance, no overflow is provided. Instead, the bath is equipped with a clic-clac that works on water pressure. This means that when the bathtub fills up to a certain height, the clic-clac opens and prevents flooding. An innovative feature in baths!

Bath: Oval in Frosted Smoke

Frosted wash bowls

The Oval and Oviedo wash bowls are also available in the three Solid Frosted colours.

Freestanding acrylic baths

Your style, your bathroom

A freestanding bathtub gives your bathroom an instant upgrade. It gives the room a luxurious feel thanks to its chic look. In addition, a freestanding bath offers you numerous possibilities because you can place it anywhere. Is a fully freestanding bath not possible after all? Then choose a semi-freestanding version, which requires less space yet retains the practical features of a freestanding bath. Win-win!

Bath: Devotion

Bath: Desire Corner

RIHO Fall

Bath filler with overflow

RIHO offers the RIHO Fall with many acrylic baths: a bath filler via the overflow. The RIHO Fall is stylishly incorporated in the bathtub and fits perfectly in every bathroom. For operation, you use a built-in tap that you can choose according to your own taste. The bath filler comes standard in chrome. Other colours are optionally available.

Sparkle Mood

Refreshing bubbles with relaxing music

A (semi) freestanding bath with refreshing bubbles? From now on, it is possible! For a number of freestanding and back-2-wall baths, we present Sparkle Mood. A system with a whisper-quiet air pump for 16 sparkle jets. A user-friendly full-flat control on the bath rim and LED colour therapy are part of the experience. And B-Music completes your relaxing bathing moment as your bath plays your favourite music via built-in Bluetooth speakers.

Desire

A statement in the bathroom

You have limited space in your bathroom, but still want a freestanding bath? Then the Desire Back-2-Wall or Desire Corner is an ideal alternative.

You can go for a more pure and sleek look by choosing the matt white version. Go one step further and choose a matt black finish on the outside and a matt white one on the inside. Give the bath an extra touch with the optional LED lighting at the bottom of the bath.

Modesty

Comfort is our priority

This designer bath lives up to its name: the double-walled bath combines a luxurious look with lying comfort and user-friendliness, without being eccentric. Modesty is made of high-quality white acrylic, making it little prone to scale and easy to clean. This bath with a sleek design is lightweight and easy to install.

Built-in bathtubs

Which bath fits you like a glove?

Rectangular, space-saving or round: RIHO offers you a wide choice of shapes and sizes so that you can enjoy the pleasure of a bath.

Do you have a small bathroom? Then choose a space-saving version or a corner bath. Are you a fan of a bath and your partner a fan of a shower? Then a bath-shower combination is your match. Plenty of options and for everyone's budget, it's up to you.
