

## STILL SMART

Still Smart is an asymmetrical bathtub that has a very comfortable and spacious lying side. The bath does not require much space in the bathroom due to the beveled shape at the foot end. The asymmetrical shape comes in two variants; a left and a right variant. The bath is equipped with new features. For example, a square pop-up has been placed in the bottom and the overflow is a sleekly designed elongated slot. No more turning knob, in other words. One of the options is to equip the sleek overflow opening with Riho Fall, a system to fill the bathtub via the overflow. The bath can also be fitted with lighting in the back, over which a white headrest is placed that diffuses the light into the bath.

Right

Riho acrylic bathtubs are made of high-quality acrylic, fully reinforced and all through white in colour. The acrylic baths are non-aging and UV resistant. The material is completely pore-free and smooth. Lime will adhere poorly so no bacteria remain. Therefore, the baths are easy to clean. The surface is pleasantly warm. Standard the bathtub does not include a legset but does include an overflow/drain.
