

NOVIK Z203

The shower cabin consists of an outward opening door and a fixed shower side wall, held by a 45° stabilizer bar. The door of 54 cm is attached to a short wall.

The Novik symmetrical shower cabins have a classic and at the same time modern appearance. The doors have an open handle and usually open outwards. The profiles are polished aluminium and the 6 mm thick glass is fitted with Riho Shield. Novik guarantees a good price/quality ratio. The cabins and walls are easy to install.

Hardened glass with Riho Shield

Parts are reversible

Thickness of the glass is 8 mm

CE approved, according to EN12150-1

The special seal profile position, the glass profile and the glass screen prevent splashing water making its way out.

45 Degree stabilisation bar rectangular

Door with lift mechanism

| Article number | H x W x D (cm) | A (cm) | B (cm) | Glass (mm) |
